

## **Updated Workplace Incident Report**

**Amazon RSR – 2225 Carlson Drive, North Mankato, MN 56003**

**Compiled: June 07, 2026**

### **4/13/2026**

7:00 am – Asked nearby pickers (aisles 7-8) to place boxes/packages correctly; they argued.

7:08 am – Asked Dan for help; he walked in the opposite direction.

Later – Stower in my aisle argued, then threatened to beat me up in the parking lot. I moved aisles. Zach ignored the threat. Dalton took it seriously at the time, but no resolution or outcome heard by 5-6 pm despite Amazon's zero-tolerance violence policy. Situation: Coworkers refused proper workflow, leading to a direct threat of violence.

Task: Ensure proper placement of packages while stowing/picking.

Action: Reported threat to leadership; moved to another aisle for safety.

Resolution: Enforce zero-tolerance violence/threat policy with clear follow-up.

### **4/17/2026**

3:44 am – Ashley not wearing hard hat on dock (daily occurrence).

4:15 am – Asked Ashley twice about break time (due to Ramadan); completely ignored.

8:24 am – Asked Ashley twice if piled-up overflowing boxes on pick-to-buff racks were safe; blown off both times.

Post pick-to-stage – Asked Ashley why bags were being removed from top rows; she was rude, copped an attitude, and replied "because we are." Situation: Multiple safety, communication, and professionalism failures by Ashley.

Task: Various (PPE compliance, breaks, safety concerns, instructions).

Action: Ashley consistently rude and unapproachable toward me.

Resolution: Retrain Ashley on appropriate coworker treatment and safety leadership.

### **4/21/2026**

Ken L – BH-UTR WMN7 – Restricted/limited bathroom use during shift; stared and leered at me in a provocative manner with no teaching purpose. From January 4 onward, I was afraid to use the bathroom. Other associates were not treated the same. In March his tone changed. Amazon training emphasizes staying hydrated and taking bathroom breaks. Pattern of staring/leering to intimidate observed by others. Action: Felt my basic needs were unimportant; created ongoing fear around self-care and hydration.

### **4/22/2026**

3:35 am & 8:25 am – Artur on dock and in semi-trailers without hard hat (multiple times).

Situation: Management member not wearing required PPE on dock/trailers.

Task: Move carts safely with correct PPE.

Action: Supervisors must follow the same safety rules as associates.

Resolution: Supervisors must follow Amazon safety measures.

## **Updated Workplace Incident Report**

### **4/23/2026**

6:18 am – Mohammed (newly promoted training ambassador) clocks in ~3 hours late (supposed to be 3:40 am). Nothing said or done. Situation: Late arrival with no consequences.

Task: Present at 3:40 am for training new hires.

Action: Why promote/train if he cannot show up on time?

Resolution: Remove as training ambassador.

### **4/24/2026**

5:35 am – Ashley, Liz, and Emily standing around by jackpot for 20-25 minutes joking about being drunk instead of working.

Situation: Assigned associates wasting time while Ashley was present.

Task: Work jackpot.

Action: Frustrating when I get yelled at for basic needs like bathroom breaks.

Resolution: Ensure associates wasting company time are held accountable. 9:00 am – Returned from break; no PA or managers present for ~20 minutes while pick-to-stage started.

Situation: No leadership on floor at start of pick-to-stage.

Task: Pick and stage.

Action: Leadership should be present when process begins.

Resolution: Ensure leadership is on the floor when pick-to-stage starts. 9:30 am – Confronted rudely by Artur over how I was handling boxes (one slipped due to weight) in front of everyone while picking to stage.

Situation: Box slip while picking to stage; Artur publicly scolded me.

Task: Picking to stage.

Action: Felt inadequate and like I should risk injury to save the box.

Resolution: If told to let boxes fall for safety, do not admonish employees for doing so.

### **4/27/2026**

3:45 am – Kevin and Mohammed clocked in, spoke to Ashley, then walked back outside to sit in their cars while on the clock (supposed to prep for training). Situation: Newly promoted training ambassadors and PA Ashley allowing time theft instead of setting up for new hires. They consistently show up late/leave early.

Task: Help set up training and greet new hires.

Action: Unfair that poor examples are training others.

Resolution: Do not promote associates who cannot show up on time or set good examples.

## **Updated Workplace Incident Report**

### **4/29/2026**

5:00 am – Ashley again parked computer cart near my aisle.

7:30 am – Mike yelled at me for not covering the other aisle (trainee had been moved without communication). I explained my Crohn's disability; he laughed and said he has it too and can still stow over 200 packages/hour. Other associates were dancing/not working; packages missed. Situation: Ashley parked cart to stare/leer/intimidate (aisles 25-28). Trainee moved after 6:30 break without notice. Mike confronted rudely at ~6:45 am.

Task: Assigned stowing aisles 25-28.

Action: Felt intimidated, disrespected, and that my disability was mocked.

Resolution: Escalate persistent issues to higher level of HR. Pervasive intimidating and disrespectful behavior from Ashley is excessive.

### **5/3/2026**

4:00 am – Ashley on dock and in trailers with no hard hat (recurring).

Situation: Observed Ashley on dock/trailers without hard hat.

Task: Wear proper PPE at all times.

Action: Management (including Ashley) preaches safety but does not follow it.

Resolution: Higher-ups must enforce Amazon safety guidelines. 5:30 am – Requested urgent help on dolphin; by 5:45 am still no help. Left aisle to find PA/manager – none found.

Situation: Assigned stowing, ran into package issues, help request ignored.

Task: Stowing.

Action: Felt my request for help didn't matter.

Resolution: Make higher-ups more accessible for support.

### **5/5/2026**

5:00 am – Ashley Park's computer cart almost right behind my aisle to leer, stare, and try to intimidate. As of 6:05 still there.

5:55 am – Emily and Liz showed up, went to talk to Ashley instead of stowing packages. As of 6:07 am still there; only started working after Dalton arrived. Situation: Ashley parked computer cart directly behind aisle for intimidation; associates socializing instead of working.

Task: Assigned stowing in A19-20.

Action: Felt intimidated by daily staring from Ashley.

Resolution: Escalate persistent issues to higher level of HR. Pervasive intimidating behavior from Ashley is excessive.

## **Updated Workplace Incident Report**

### **5/6/2026**

10:05 am – Ashley in break room before pick-to-stage done, then followed me outside and leered/stared from around corner.

11:38 am – Ashley stared/leered at me while eating and leaving during taco day. Situation: Intimidation and staring during off-task/break time.

Task: Break/meals.

Action: Felt uncomfortable, intimidated, and not allowed to be there.

Resolution: Address Ashley's behavior.

### **5/7/2026**

3:50 am – Sayeed (training ambassador) shows up 10+ minutes late (due 3:40 am).

First break – Witnessed Kevin and Mohammed smoking weed in car; Ashley motioned they stunk but let them return to work.

10:49 am – Liz dancing in front of Artur and Ashley while bags needed reset and associates needed help; they scattered when I approached. Situation: Late ambassadors, drug use on break with PA awareness, socializing instead of working.

Resolution: Enforce policies on attendance, substance use, and work duties.

### **5/8/2026**

6:32 am – Personally witnessed Mohammed smoking weed vape on first break in parking lot (by camera, multiple times), then returned to floor.

### **5/11/2026**

Incident: Monday, May 11, 2026 at 02:34 PM.

Situation: Outside after pick-to-stage (I took PTO for rest of shift); Mike came yelling, accused me of stealing time. Two witnesses present.

Task: Taking approved PTO.

Action: Tried to explain; he wouldn't listen. Documented incident.

Result: No outcome yet.

Concerns: Unequitable treatment, unprofessional behavior, harassment/intimidation, policy not followed, lack of communication.

### **5/13/2026**

Incident: Wednesday, May 13, 2026 at 08:52 AM.

Situation: Observed Artur on dock and in trailers without hard hat.

Task: N/A (pre-clock in).

## **Updated Workplace Incident Report**

Action: Observed and documented.

Result: N/A.

### **5/15/2026**

Incident: Friday, May 15, 2026 at 08:46 AM.

Situation: Ashley on dock and in trailers with no hard hat (recurring).

Task: N/A (pre-clock in).

Action: Observed and documented.

Result: Nothing yet.

Concerns: Unprofessional behavior, unsafe conditions, policy not followed.

### **5/15/2026**

Incident: Friday, May 15, 2026 at 08:41 AM.

Situation: Returned from lunch for pick-to-stage; no leadership (Ashely / Artur) for ~20 minutes.

Found operations manager; leadership later appeared and helped (unusual).

Task: Pick-to-stage.

Action: Documented lack of leadership.

Result: Leadership eventually returned.

Concerns: Lack of communication, unclear expectations, unsafe conditions, policy not followed.

### **5/27/2026**

Incident: Wednesday, May 27, 2026 at 11:15 AM.

Situation: Observed Kevin and Mohammed smoking actual joint (plus empty containers) in parking lot on break. Ashley walked up right after, asked to borrow a lighter, did not report it, and let them return to work intoxicated.

Task: On break.

Action: Observed and documented PA not following policy.

Result: No outcome yet.

Concerns: Favoritism, unprofessional behavior, special treatment, unsafe conditions, policy not followed.

### **5/31/2026**

Incident: Sunday, May 31, 2026 at 06:34 PM.

Situation: After pick-to-stage, helping with stow carts and empty bags. Mike singled me out aggressively, ripped staging cart from my hand causing me to trip.

Task: Return carts and help fill bags.

Action: Continued work after incident.

Result: Mike left me alone.

## **Updated Workplace Incident Report**

Concerns: Harassment/intimidation, unprofessional behavior, inequitable treatment, unsafe conditions, policy not followed, retaliation concerns.

### **6/1/2026**

Incident: Monday, June 1, 2026 at 05:43 PM.

Situation: Arrived 3:40 am; observed Sayeed arrive 4:05 am (due 3:40 am). No ambassadors present for new hires. New hires asked me what to do; I had them wait in training room and asked Dan for help (no badges).

Task: Locate supervisor per policy (badges required).

Action: Documented incident.

Result: Nothing yet.

Concerns: Unprofessional behavior, policy not followed.

### **6/1/2026**

Incident: Monday, June 1, 2026 at 04:41 PM.

Situation: After first break finishing pick-to-buff; Tad diverting packages per policy (1-inch space). Mike got in his face yelling and arguing aggressively.

Task: Stowing packages.

Action: Witnessed and documented (felt uncomfortable, fear of fight).

Result: Nothing yet.

Concerns: Lack of communication, unprofessional behavior, harassment/intimidation, unsafe conditions, policy not followed, special treatment.

### **6/5/2026**

Incident: Friday, June 5, 2026 at 07:10 AM.

Situation: Leaking package spilled over aisles 27/28. Artur told Keven to clean with mop/soap; both cleaned without proper PPE or training per policy.

Task: Stowing packages.

Action: Observed and documented.

Result: Nothing yet.

Concerns: Policy not followed, unsafe work conditions.

## **Updated Workplace Incident Report**

### **Summary of Amazon Associates' Behavior and Time Off Task at WMN7 (WMN7 – North Mankato Facility)**

The report documents a persistent and compounding pattern of unprofessional conduct, safety violations, intimidation, favoritism, time theft, and policy non-compliance among many associates and some Process Assistants (PAs)/training ambassadors at the WMN7 facility.

Volume and Frequency: The observer reported 19 issues from April 11 to May 8, 2026, followed by 9 additional issues from May 8 to June 5, 2026. This totals 28 documented issues over approximately 59 days. The problems are clearly compounding — similar to interest — with recurring themes involving the same individuals (especially Ashley, Artur, Mike, Kevin, and Mohammed) and no apparent resolution or accountability, leading to escalation in frequency and severity over time.

#### **1. Time Off Task / Time Theft**

- **Multiple instances of associates standing around, socializing, joking, or dancing instead of working (e.g., Ashley, Liz, and Emily joking about being drunk by the jackpot for 20–25 minutes; Emily and Liz talking instead of stowing; Liz dancing while work was needed).**
- **Training ambassadors (Kevin, Mohammed) clocked in then sat in their cars while on the clock, with PA Ashley aware.**
- **Frequent late arrivals with no consequences (Mohammed ~3 hours late, Sayeed and others repeatedly 10+ minutes late) and early departures.**
- **Associates walking away or refusing to assist when asked.**

#### **2. Refusal to Cooperate / Workflow Disruptions**

- **Arguments over proper package placement, ignored requests for help or information, rudeness (“because we are”), and scattering when the reporter approached areas needing work.**

#### **3. Safety Violations and PPE Non-Compliance**

- **Repeated failure to wear hard hats on the dock and in trailers (Ashley and Artur on multiple dates).**
- **Cleaning chemical spills without proper PPE or training.**
- **Ignoring safety concerns regarding overflowing racks and improper handling.**

## **Updated Workplace Incident Report**

### **4. Intimidation, Harassment, and Unprofessional Behavior**

- Direct threat of physical violence in the parking lot (April 13), with inadequate leadership response.
- Persistent staring, leering, and intimidation by Ashley (repeatedly parking her computer cart directly behind or near the reporter's aisles to watch/intimidate).
- Aggressive public confrontations, yelling, mocking of the reporter's Crohn's disability, and physical incidents (e.g., Mike ripping a cart causing a trip).
- Restricted bathroom access and provocative staring by Ken L., creating ongoing fear around basic needs.

### **5. Substance Use and Policy Tolerance**

- Kevin and Mohammed repeatedly observed smoking weed/vape/joints in the parking lot on breaks; PA Ashley was aware (borrowed a lighter), allowed them to return to work intoxicated, with no consequences.

### **Overall Patterns**

- Favoritism and double standards: Certain associates and ambassadors receive leniency on attendance, time theft, substance use, and productivity, while the reporter is scrutinized or mocked for basic needs, approved PTO, or safety-focused actions.
- Leadership involvement: Several PAs and training ambassadors actively model poor behavior or enable it rather than correct it.
- Impact: Creates unsafe working conditions, a toxic environment, fear of retaliation, and frustration over unequal enforcement of Amazon's policies (zero-tolerance violence, PPE, attendance, substance use, and performance expectations).

**In summary, the 28 issues across 59 days demonstrate a deeply entrenched subculture of rule-breaking and poor accountability at WMN7, with behaviors compounding over time and showing no signs of improvement despite repeated documentation.**

## **Updated Workplace Incident Report**

### **Requested Remedies for the 28 Unresolved Issues**

Due to the ongoing, unresolved nature of these incidents, the persistent disrespect from management, and the lack of proper leadership, training, guidance, and focus on Amazon's core process of moving high volumes of units efficiently, the following remedies are formally requested:

- 4 hours of PTO per issue: 28 issues × 4 hours = 112 hours of PTO to compensate for time lost dealing with these matters, stress, safety concerns, and disrupted work.
- A \$1.00 per hour raise applied to the current base rate, effective immediately, in recognition of the hostile environment and extra burden endured while maintaining performance.
- Open-door access to higher-level personnel (HR, Operations Manager, or Regional leadership) for direct escalation and ongoing management of these unresolved issues without fear of retaliation.
- Opportunity for training and advancement: consideration and open access to PA (Process Assistant) or equivalent leadership training and positions.
- College tuition assistance: Full coverage for relevant college classes or courses that Amazon does not currently offer, to support professional growth and development in areas where current management has failed to provide teaching, guidance, respect, or process excellence.

These remedies are requested to address the cumulative impact of the documented issues, restore fairness, support continued employment and growth at Amazon, and prevent further escalation
